LAST POSITION

Javascript / Frontend Developer

Sixty As

📅 10/2020 - 10/2024 🔗 <https://www.sixty.no/ease-tv/>

I've been developing the UI on TV set-top boxes using React/Typescript and Coffeescript while sometimes doing backend related tasks like CI/CD, AWS etc. I have been collaborating close with clients to make sure new implementations fits well with the codebase and its structure.

Work methodology we've been using are Kanban boards and Scrum sprints (depending on the client) and Figma where we work close with designers.

Git

Figma

EDUCATION

Bachelor IT

Høgskolen på Vestlandet

📅 2017 - 2020

Electrical Engineering

Høgskolen på Vestlandet

📅 2016 - 2017

- Studied for one year.

STRENGTHS

Communication

As a previous telemarketer I've learned efficient communication verbally and in writing.

Eye for details

Details are important to create an edge over competitors and capture the client.

Problem solver

I'm used to systematically analyze and quantify challenges into smaller pieces, and put it all together for a solution.

Love to learn

I love learning new things and keeping myself updated on current technologies.

OTHER EXPERIENCE

Telemarketer

Norsk Radon Rådgivning

📅 2015 - 2016 📍 Bergen

Sold equipment over phone to measure radon in households.

Fireguard CCB Ågotnes

Securitas

📅 2014 - 2015 📍 Ågotnes, Sotra

Fireguard on oil rigs onshore for maintenance.
